Company of 120 to 130 men, with a medium mortar platoon having two 82 mm mortars; a heavy mortar plateon with two 120 mm mortars; an AT platoon with two 57 mm guns; a medium AT platoon with two 76.2 mm guns; an AA machine-gun platoon with two heavy AA machine guns. The company also has about 105 to 110 Soviet rifles. A platoon has 20 to 23 men, without counting instructors or cadres, who are furnished from the active battalions.

- Eighty percent of the reservists are from Siebenburgen, the remainder from 4. the Regat; all are of Rumanian nationality. Down through 1952 reservist training lasted three months, but in 1953 this was shortened to two months.
- All the men of the regiment wear red insignia. 5.
- Basic training in the active formations is rapid. Two weeks are spent in 6. learning the new weapons, whereupon exercises and fire training were immediately began . Great attention is given to accuracy of fire. The instructors are anxious that the troops also learn movement in both open and difficult country and there is much training in concealment from air observation and attack.
- A Soviet lieutenant accompanied by 16 to 18 other Soviets , visited 7. the regiment during the sixth week of training, and exercises were held for them. The Soviets seemed contented with respects in the Balkans.
- Morale is not high and the men are listless; there are few Party members 8. among them.
- Motorization of the regiment is in progress. 9.
- 10. In addition to this regiment Tulsea also helds a marine infantry battalion and a border guard company. State of the state of the state of
- formations of infantry were brought to it for summer exercises in 1953. There is a military exercise area 3 km south of the infantry barracks. Large 11.
